

SEPTEMBER 2008 CONFERENCE TOPIC QUESTIONNAIRE

This questionnaire will help the Doble Client Apparatus Committees obtain topics for discussion at the September 2008 Doble Client Meetings. Ultimately, the subjects generating the most interest will be provided as Conference Presentations at the 2009 International Conference of Doble Clients. Please provide topics for any of the apparatus committees: ACCA, AMM, BIIT, CB, IM, PACC, RM and T.

CONFERENCE PAPER OFFERED BY YOUR COMPANY STAFF

Please provide information on a Conference presentation that representatives of your company are willing to prepare. Please provide the following information:

Title:	
Authors:	
Abstract:	

CONFERENCE PAPER OFFERED BY OTHER DOBLE CLIENT COMPANIES

Please provide a recommendation for a topic that you desire to be addressed in Conference presentations prepared by other Doble Clients. The names of the client companies and, when possible, the specific individuals, should be provided along with background information on the subject.

Topic:	
Possible Author(s):	
Background Information:	

CONFERENCE PAPERS PREPARED BY DOBLE

Please provide recommendations for topics that you desire to be addressed in the Conference presentations prepared by Doble Engineering.

Recommended Topics:	
---------------------	--

CONFERENCE PAPERS PREPARED BY MANUFACTURERS

Please provide a recommendation for a topic that you desire to be addressed in the Conference presentations prepared by a manufacturer. The name of the manufacturers and, when possible, the specific individuals, should be provided along with background information on the subject.

Topic:	
Possible Author(s):	
Background Information:	

DOBLE TECHNICAL QUESTIONNAIRE

Please provide a subject or question that you desire to be considered by the Doble Committees for inclusion in the next Doble Technical Questionnaire. Background information on the proposed subject or question should be provided. Suggested wording of the proposed items will assist the Committee in developing questions that will obtain the information desired.
