

CALIBRATION AND PREVENTATIVE MAINTENANCE SERVICE

ESTABLISHING AN ANNUAL CALIBRATION CYCLE WILL ENSURE THAT YOUR PHENIX EQUIPMENT IS ALWAYS WITHIN FACTORY SPECIFICATIONS.

It is recommended by Phenix Technologies that all equipment manufactured by Phenix be calibrated annually. Establishing a regular calibration cycle will ensure that your Phenix equipment is always within factory specifications.

We will perform a complete systems circuitry calibration. Only Phenix Technologies staff of service engineers is qualified and experienced to service your Phenix equipment. The standards used by Phenix Technologies for calibration are traceable to NIST and NRC so you can be sure that your equipment will meet the various standards that you have to comply with in the course of your daily business.

SERVICES

Our established regional calibration scheduling throughout the United States allows us to offer this service to customers at a reduced price.

- Annual, traceable calibration with sticker, certificate, and before and after data.
